Die Impfung schützt vor schwerer Krankheit

Häufige Symptome von COVID-19

- Kopfschmerzen
- Fieber
- Verlust Geruchs- / Geschmackssinn
- Halschmerzen
- Atemnot
- Trockener Husten
- Abgeschlagenheit
- Durchfall

Komplikationen von COVID-19

- Lungenentzündung
- Folgeschäden an Herz und Gefäßen
- Überschießende Immunreaktion
- Atemnot bis hin zur Beatmungspflichtigkeit
- Folgeschäden am Nervensystem
- Langzeitfolgen von COVID-19

Überträger nach corona infektion.

"The heart is an elamous, throughout the flies. take the cardan arrhythmia. " This vÅrus can also affect the heart. The person who has pulmonary participation knows this because he coughs. But you do not feel the heart." Sports Tip Martin Halle or Himself, recognizes body signs and never ignores central points. Halle: "How do I? Is there fatigue or possibility, the moms are differing?" The pulse also is a good indicator. "If now I have 70 or even 75 pulse at rest instead of 65, so you must say, 'Pause, obviously not even healed.' The following applies to ambitious athletes: "that is examined," can, very high pulse or scarcity of air is warning signs that recreational athletes can diagnose quickly. If the heart has been affected no IT's so fancil. With an EKG and a blood recipe, you can say very well, if there was a cardan participation. "In Principle, the way to loose was" going too ruffled, "says Halle. Your simple advice: keep carrying your mother inward." All. It took us to be mothers, you could continue to do it. "said the Mother. be serious and to destroy careers, plus this topic in The Program: Sport Current | 22.03.2022 | 16:25 Talgers in this article Coronavirus updated on 25/04/2022 the claiming claims: We work.
